***San José BioCenter Client Inks Major Deal with Moritex***

**San José** --- On April 13, 2005, BrighTex Bio-Photonics (BTBP), a corporation focused on development of applications for the Imaging, Sensing, and Recognition sector of the bio-photonics industry, inked a major OEM agreement with global firm, Moritex, a company specializing in imaging and bio-scientific systems.

BTBP's product, **Clarity**, will be packaged and sold directly with Moritex imaging units worldwide as a complete system solution for medical spas, dermatologists, and skin care specialists. **Clarity** combines a sleek and intuitive user interface, with built in artificial intelligence for image analysis and early disease detection.

Moritex is involved in the manufacturing, importing and exporting of related products, ranging from telecommunication devices, optical fiber related instruments, image and optical equipment, bio-scientific systems to intelligent materials. Moritex's market encompasses Asia, South East Asia, Europe, North and South America.

"This agreement demonstrates BrighTex's leadership in imaging software. Moritex rigorously evaluated our technology and determined that Clarity provided the type of interface and the functionality that would boost their world wide sales," said Raj Chhibber, CEO of BrighTex BioPhotonics.

*-more-*

“BrighTex originally looked at our existing equipment & software and realized they could improve upon it. Quite simply they have done this in a very short time span,” said Kevin Sebley, Sales and Business Development Manager, Moritex USA. “We now have a basic product in place, with ideas already flowing for more advanced analysis programs.”

BrighTex Bio-Photonics is one of the eight client companies of the San Jose BioCenter, which provides a support environment for young companies developing cutting edge technology and products. The other client companies of the San Jose BioCenter include Ahwahnee Technology, Cytolution, Inologic, Manoa Medical, MedLex, Pro-pharmacon and Technolgene.

“BrighTex Bio-Photonics is a great example for the San Jose BioCenter,” said Mayor Ron Gonzales. “We are committed to working hand in hand with the creative young companies to ensure they have the tools and resources they need to succeed and grow into businesses that will be a strong part of our future economy.”

### **About BrighTex Bio-Photonics**

BrighTex Bio-Photonics (BTBP) develops and enhances the detection of early skin conditions and diagnostics through imaging, utilizing algorithms for early signature analysis specific to the area of biosciences and industrial applications. BTBP partnerships allow companies to enhance the capability of their imaging systems. For more information, visit <http://www.btbp.org/>

### **About Moritex**

Moritex provides the market with fiber optics, machine vision, automated optical alignment, automated bio equipment, spherical and optical technologies. Moritex products support high tech industries such as semiconductor manufacturing, electro-optical systems, machine vision imaging systems, telecommunications, information technology (IT), bioscience and laboratory automation. For more information, visit [www.moritexusa.com](http://www.moritexusa.com).

### **About San Jose BioCenter**

The San Jose BioCenter (SJBC) is a state of the art facility equipped with wet/dry laboratory and office space that provides world class business and facility services to high potential life science companies.

*-more-*

SJBC members have access to an extensive range of products, services and equipment that enables them to grow and scale successful businesses. The City of San José and the San Jose State University Foundation have partnered to invest in the facilities and business services of the San Jose BioCenter, demonstrating a continuing commitment to economic and social returns for the Bay Area and for the industry at large. For more information, visit [www.sjbiocenter.com](http://www.sjbiocenter.com).

The San Jose Redevelopment Agency is dedicated to improving the quality of life for all who live and work in San José. Governed by the City Council, the SJRA facilitates and oversees comprehensive programs for development to revitalize the City's Downtown, neighborhoods, and industrial areas.
