

## ▶ investment in innovation

The City of San Jose invested \$6.5 million in contemporary lab facilities and best-in-class business development and operational support services for high potential companies in the Life Science industry.

This unique access to services and equipment enables client companies to grow and scale successful businesses. The San Jose BioCenter team works closely with client companies as true partners in their growth, creating value over the long term. Our mission is to provide entrepreneurs with the resources, contacts and experience they need to commercialize their technology.

The City of San Jose and the San Jose State University Foundation have partnered to invest in facilities and business services, demonstrating a continuing commitment to economic and social returns for the Bay Area and for the industry at large.

### Company Selection Criteria

Innovation Into Industry.

## ▶ fastest growing cluster

According to the 2004 Milken Institute Report, San Jose is one of the fastest growing life science clusters in the United States, and ranks overall in the top 4 clusters across the nation. This study is based on measuring the indices of research & development, risk capital and entrepreneurship infrastructure, human capital and workforce.

San Jose fosters innovation through strategic investments in economic development initiatives that support the efforts of the corporate community to increase productivity, add value, reduce costs and grow operations. San Jose offers unique benefits and unparalleled competitive advantages to both small and large companies in diverse work environments and technology parks located throughout the city.

### Edenvale Technology Park

- Over 300 large corporations including Stryker Endoscopy, Innovative Robotics, Clinimetrics, IBM, Intel, Hitachi, Lynux Works, Solectron, Power Integration and Jabil Circuits
- 2,312 acres, with 12 million square feet of R&D, office and manufacturing space
- \$90 million in redevelopment investments in infrastructure to support business needs
- Easy access to Highway 101, Routes 85 and 87 and the Mineta San Jose International Airport
- 12 minute commute to Downtown San Jose
- Proximity to major academic institutions including San Jose State University, Stanford University, Santa Clara University and UC Santa Cruz
